WELCOME

Move Academy (School of Business) is a training provider offering innovative programmes related to many aspects of fitness and business within New Zealand.

1. A safe and supportive learning environment

The ethos of MOVE ACADEMY is to provide quality training in a caring manner.

Learners do pre course work in their own homes or their own workplace. In their home, as an adult, they are responsible for their own health and safety. In their workplace, or on a placement, they and their employer are responsible for their own health and safety.

At MOVE ACADEMY we provide a training facility that meets all health and safety requirements and practices that meet all industry requirements.

The support MOVE ACADEMY offers includes onsite support if a special class is organised, rt and a one-to-one meeting if something personally or professionally is worrying them. If a learner is going through a family success, challenge or crisis we check they are OK and advise them to adjust their training sessions to accommodate the issues.

Check out the great videos from NZQA about student care. Go to <https://www2.nzqa.govt.nz/tertiary/the-code/the-code-for-learners/videos/>

2. Assistance for students to meet basic needs.

MOVE ACADEMY offers blended learning with many students connecting online. In those cases, MOVE ACADEMY is not privy to their lifestyle or needs. Where communication or an assessment submission alerts us to struggles a learner may be having, we will reach out to that learner to ensure they can access the support they need. However, learners who are attending online classes or who visit the school will be part of a caring environment where caring staff notice and nurture those in need.

Respect is provided in all learner interactions but MOVE ACADEMY is not privy to basic needs of food and in learners' own homes, unless something was presented in a video session. In this the case tutor would connect with the learner after the class to ensure the learner's safety.

MOVE ACADEMY is not involved.

If it was feared a learner had nowhere to live or no food, we will individually work with that learner to identify and access the resources available in their hometown.

3. Physical and mental health of students

MOVE ACADEMY promotes a physically and socially safe learning environment for any on site sessions and promotes a respectful environment in online activities.

The following links are provided to learners as well as each learner knowing we are an email or phone call away if they need anything specific related to their course.

National helplines

Link to **HELPLINES BROCHURE**

<https://www.mentalhealth.org.nz/get-help/in-crisis/helplines/>

Need to talk? Free call or text **1737** any time for support from a trained counsellor

4. Progress and personal development of students

Each learner receives personalised detailed feedback within a day or so of submitting any assessment. We use the assessment result approach to advise all learners:

- What you have done well
- What specific things were wrong (If any)
- Why they were wrong
- What you need to do to resubmit
- The resources to review to help with the resubmission
- And you (the learner) set the resubmission date that fits into your current situation.

There is limited communication with learners – they enrol, they receive the workbook, they attend the webinars, complete the assessment and then graduate.

All assessment activities make learners apply theories and skills in real situations in real life so they can learn and grow from those applications.

5. Inclusive learning environment

MOVE ACADEMY offers an inclusive on site and online environment so students and can learn and participate together. We offer a supportive environment for all learners, including those with learning differences and those who need the challenge of more complex learning. Regardless of culture, ethnicity, background, gender, position at work, clothing style etc., all students are treated equally.

MOVE ACADEMY

embraces the diverse heritage of each and every learner.

We believe and promote

equality and equity and kindness and acceptance

as each is a critical success factor!

We encourage in the onsite, online in self-directed work:

- Learners' alternative perspectives and ideas
- Learners sharing their own life stories and interests

We promote a supportive, respectful environment where we advocate for fairness.

We have high expectations of all your students and show them we believe in them.

We create a supportive peer culture both inside and outside the classroom and encourage learners to work with colleagues to discuss aspects of their learning.

In onsite sessions the tutor keeps track of who comments, responds, asks and contributes.

That way every person is then purposefully included in questions and tasks in an equal manner. There are no silent learners and no "take over the class" learners.

We work hard to ensure learners really are engaged in their learning, so they apply real things in real situations as MOVE ACADEMY believes.

6. Student voice

Any student can raise any question, issue, debate or concern at any time, and it is responded to with professionalism and interest.

Documentation is kept ensuring a clear set of objective and supportive responses are shared.

7. A positive and supportive environment in student accommodation

Students live in their own homes while completing MOVE ACADEMY courses so there are no accommodation requirements.

8. A supportive residential community

As there is no residential area this does not apply. However, should a cohort be staying in a hotel to attend a specific, unique workshop, MOVE ACADEMY would ensure the environment is congenial, kind and respectful.

9. Accommodation plans, administration and operational policies

As there is no residential area this does not apply.

10. Building facilities and services

Any training room used by MOVE ACADEMY is in the Browns Bay facility.

MOVE ACADEMY ensures:

- accessible and clearly marked emergency exits,
- clearly marked outdoor assembly points,
- adequate circulation of air,
- appropriate heat in the winter,
- appropriate cooling in the summer
- access to rest rooms,
- reasonably comfortable seating and table configurations,
- drinking water,
- access to a telephone for emergency calls in or out,
- no visible hazards that are not signposted appropriately,
- no exposed cords or electrical hazards,
- first aid box availability (located in the company's premises or taken for the trainer)

- emergency evacuation instructions,
- injury prevention information (e.g., if there is an exercise, safety is critical, and the tutor will insist the learner rest if seen to be unwell or in pain etc.)
- easy access to outside.

Health and Safety

- There is always one First Aid trained person on site.
- MOVE ACADEMY demonstrate compliance with all health and safety standards.
- All the points outlined above will be reviewed for each and every face-to-face training session, if they are scheduled.
- A copy of these health and safety details and procedures is held as a separate document.

Equipment

- All equipment is fully safety checked each year
- All equipment is checked each morning before classes commence
- A full record is kept of any equipment issues with actions taken etc.

11. Pandemic compliance

- All government and NZQA related rules will be followed in the event of another Covid outbreak or something similar.
- Following these rules is mandatory for all as the health and safety of the staff and students is paramount.
